How to measure a lightbox- POS COE +

STEP 1: DETERMINING “OUTSIDE” MEASUREMENT

Open light-box. Measure end-to-end of the light-box horizontally (Width) and then vertically (Height). This is your “outside” measurement because it is the width (W) and height (H) of the “outside”, or total area, of the transparency that goes into the light-box.

STEP 2: DETERMINING “INSIDE” MEASUREMENT

Close light-box. The part of the transparency that you see (not the part that is hidden behind the frame) is called the “inside” measurement.

POINTERS

1. W x H (that’s the order) – otherwise the “vertical” or “horizontal” distinction will be inverted.
2. The “outside” measurement is always larger than the “inside” measurement. If it’s not, something is wrong.
3. Think of a picture frame in your house. If you buy a 5x7 picture frame it does not mean necessarily (unless there is no frame) that the whole picture frame itself measures 5x7 – it means that the “inside” measurement” or the part of the picture you see is 5x7. However, the overall actual size of the photo you put in the frame may be larger than what you see – that’s called the “outside” measurement.

Repair & Maintenance- POS COE +

As a Field Executive, you are responsible for requesting repairs and maintenance work to be done on your counters.

Before entering a request, ALWAYS contact your retail partner to address. The Retailer should be your first point of contact for repairs and immediately if hazardous.

If retailer is not able to resolve follow these steps:

Service Channel log in

- Download app from Apple APP store Service Channel "business"
- User ID: work email ex. jdoe@estee.com case sensitive
- Password: elc1234 single sign on

Create work order

- Select work order icon WO/ new WO
- Select location of the repair- *6 digit door number & brand abbreviation Example 1403-01CL
- Follow prompts and be as descriptive as possible, listing everything that is in need of repair with as much detail as you can.
- Include photos. The more the better, ideally ones that clearly identify what and where the issues are.
- Never discard parts!

If approved, the Counters Facilities Team will work on completion. Sometimes this requires further brand approval and/or design input.

Once repaired you will get a notification of completion.

If there are any issues with service or work, contact the Counters Facilities Team immediately.

INSPIRATION

In the heart of Andalusia, Southern Spain, rolling hills of wild cistus labdanum stretch beneath the ancient gaze of Alhambra. Labdanum is a treasured incense of the ancient world and forms the heart of our new Cologne Intense. A powerful, ambery scent with an exquisite Middle Eastern allure – Amber Labdanum.
