

REGIMEN

AM
ROUTINE

Apply AM to protect against visible UV damage and sun/dark spots

STEP 1: CLEANSE

AM: Checks and Balances Frothy Face Wash
Easily rinses away dirt and purifies pores of oils that can lead to blemished

STEP 2: PREP

Mega-Mushroom Treatment Lotion
Strengthens skin barrier
Visibly soothes irritation and calms skin

STEP 3: TREAT

Mega-Mushroom Restorative Skin Concentrate
Repair a compromised skin barrier over time with 3 actions

STEP 4: MOISTURIZE

Mega-Mushroom Fortifying Emulsion
48-hour hydration defense against free radical damage from blue light exposure.

STEP 5: PROTECT

Daily UV Shield Brightening Skin Protector Mineral SPF50 / PA+++
Protect with suncare

SPECIFIC CARE
(UV PROTECTION AND DARK SPOT REDUCTION)

Steps 3 and 4 to be adapted according to needs

MMTL increases the penetration rate of Dark Spot Brightening Serum by **40% in 4 hours** when used in a regimen

STEP 3: TREAT

Mega-Mushroom Dark Spot Brightening Serum
Treats dark spots and post-acne marks, and irritation that can lead to visible discoloration

STEP 4: MOISTURIZE

Mega-Mushroom Dark Spot Brightening Moisturizer
Visibly reduces dark spot and provides barrier support and all-day hydration

STEP 5: PROTECT

Daily UV Shield Brightening Skin Protector Mineral SPF50 / PA+++
Protect with suncare
