ORIGINS ESSENTIAL DAY CARE ROUTINE

FREQUENTLY ASKED QUESTIONS

1 What is the difference between prevention aging VS anti-aging?

“Anti-aging” typically targets the symptoms and visible effects of aging, while “prevention against aging” emphasizes avoiding or delaying the underlying processes that contribute to aging or working on first/early signs of aging.

2 Why does the Youthtopia Apple Cream jar look different from other jars I’ve been using for years from Origins, for example, Plantscription cream package?

As part of our brand repack effort, Youthtopia is the first new franchise that’s launched with this fresh new look. As a brand, not only we are reinforcing our sustainability mission, but also elevating our brand positioning and look & feel to be more modern, sophisticated and eco-conscious. Our jars are designed in customized shape with conscious use of materials. We even think about ergonomics - the ribbing detail on the tooled jars is perfect to fit in your hands!

3 I have acne/blemish-prone skin, can I use this moisturizer?

The Peptide Plumping Apple Cream is non-acnegenic/ non-comedogenic, dermatologist tested. If experiencing discomfort, consult doctor.

4 What’s the scent of the Apple Cream? Is it naturally-derived?

We use naturally-derived ingredients to develop our signature scents at Origins. The Peptide Plumping Apple Cream has a “tart green apple” scent featuring a blend of green, herbaceous notes of Galbanum and Geranium, and enhanced with bright citrus notes of Bergamot, Lemon, Orange and Mandarin.
