

WHO IT'S FOR

- Silicone Free
- Free of drying alcohols
- Appropriate for All Skin Types
- Dermatologist Tested
- Non-Comedogenic

HOW TO DEMO

- 1 Shake well before use 
- 2 Pour a generous amount onto cotton pad 
- 3 Gently swipe the cotton pad on the back of the customer's hand 
- 4 Wait for product to be fully absorbed (skin feels almost dry to touch) 

SUSTAINABILITY

- Vegan*
- 97% naturally derived**
- This package is recyclable. Please keep cap on bottle to recycle.

*Free of animal-derived ingredients.

**Using the ISO 16128 Standard, from plant, non-petroleum mineral, and/or water sources.

HOW TO USE

- 1 Shake well before use 
- 2 Pour a generous amount onto cotton pad 
- 3 Gently swipe the cotton pad across cheeks, forehead, chin, and nose with gentle pressing circulations 
- 4 Wait for product to be fully absorbed (skin feels almost dry to touch) 

ORIGINS ESSENTIAL DAY CARE ROUTINE

FREQUENTLY ASKED QUESTIONS

1 What is the difference between prevention aging VS anti-aging?

“Anti-aging” typically targets the symptoms and visible effects of aging, while “prevention against aging” emphasizes avoiding or delaying the underlying processes that contribute to aging or working on first/early signs of aging.

2 Should I use the Refining Apple Peel AM or PM?

You may use it once a day depending on your own preference. Apply sunscreen while using

3 Do I need to wash off the Apple Peel after use?

No. Apply the peel onto cleansed skin with cotton pads and wait until skin feels dry before the next step of Mega-Mushroom Treatment Lotion or serum.

4 How do I use the Apple Peel?

Shake to activate before use. Pour a generous amount onto a cotton pad and swipe across entire face (avoid eye contour). The use of a cotton pad helps with physical exfoliation, meanwhile, the chemical exfoliation from the formula helps to smooth skin, improve texture, and provides immediate hydration. Use once daily, AM or PM depends on personal preference or regimen. Do not use the Peel with Retinol or other AHA products. Always apply sunscreen while using.

5 Should I use the Apple Peel before or after Mega-Mushroom Treatment Lotion?

We recommend using the Peel BEFORE MMTL for the following reasons: The Peel acts as an exfoliating toner with acids that help to smooth, plump, and hydrates skin. Acids work the best on freshly cleansed skin. The acids may cause mild irritations when directly applied onto skin. Using MMTL as the next step helps to calm and relieve the irritation. Using the Peel as the first step after cleanser helps with better penetration of serum afterwards – when you exfoliate better, skin absorbs better.

6 Can I use retinol products while using the Apple Peel?

We do not recommend use retinol products together with the Peel. If you use retinol at night, use the Peel in the morning and apply sunscreen.

7 Is the Essential Oil in the Refining Apple Peel naturally derived?

We use all-natural ingredient to develop our signature essential oils at Origins. The scent in Youthtopia Apple Peel Essential Oil blend opens with fresh, herbaceous notes of Galbanum complemented by the citrusy effect of Litsea Cubeba oil, delivering juicy accords composed of natural Melonal and Peach Pure.
