ORIGINS - 20 YEARS OF MUSHROOM DISCOVERY

2006 - PLEUROTUS OSTREATUS

- Oyster Mushroom
- Made using a special extraction to extract the active molecules

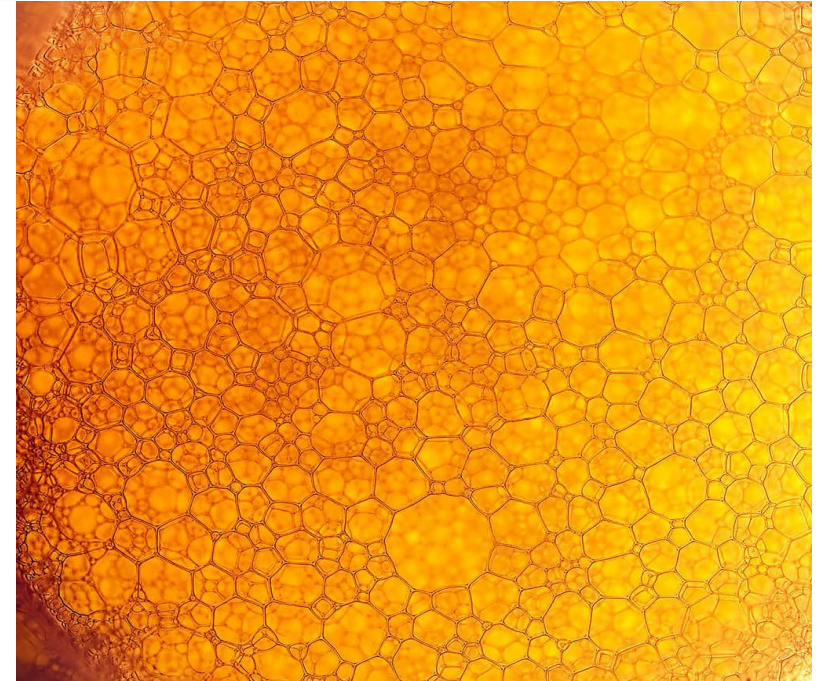

2015 - CHAGA

- *"King of Mushrooms"* - found growing on birch trees
- Chaga is loaded with essential vitamins, minerals and nutrients like Zn, K & Mg

2017 – FERMENTED CHAGA

- Fermenting Chaga increased its anti-irritant potency by 28%*
- Over 3-day process and has been made from the same "mother culture starter" to ensure consistency, purity and potency.

*In an in-vitro study vs. unfermented Chaga

ORIGINS - 20 YEARS OF MUSHROOM DISCOVERY

2020 - COPRINUS MUSHROOM

- Grows in rings due to underground mycelium system
- Folklore says there is magic within the ring
- Powerful antioxidant

2021 - PHELLINUS LINTEUS

- Multi-functional Mushroom - grows on the "elbow" of trees
 - ✓ anti-inflammatory
 - ✓ anti-angiogenic
 - ✓ anti-oxidant

2022 - TREMELLA MUSHROOM

- Snow / Jelly mushroom – edible delicacy
- Beautiful, flower-like structure white/translucent form
- Absorbs its weight in water
- Delivers hydration properties in skin.

2023 - TRAMETES MUSHROOM

- "Turkey Tail" mushroom uses enzymes to remove pigment from the wood it grows on
- Cluster-buster in skincare
