RIBBON WRAPPED LASH MASCARA FAQs

What is a tubing mascara?

- ♥ Ribbon Wrapped Lash, a tubing mascara, creates a super-extended tube around each individual lash, stretching them to unbelievable lengths. Applying a tubing mascara may require different techniques compared to applying traditional wax, oil, or water-based mascaras.
- ♥ Pro Tips:
 - ✂ For ultimate lift, start at the base of your lashes to build to a strong foundation. Stroke upward, don't wiggle or zig zag.
 - ✂ Apply multiple coats while your lashes are still wet to build length.
 - ✂ Tip to Tip! Use the tip of our Lash Extension™ Brush to tip the ends of your lashes for added length.

What is the best way to use the tip of the brush?

- ♥ Ribbon Wrapped Lash Mascara's "party tip" is perfect for small, hard-to-reach lashes like the inside and outside corners. It also helps build length at the tip of your lashes and evenly separates your lashes.

My lashes do not stay curled after I apply Ribbon Wrapped Lash Mascara. What should I do?

- ♥ Make sure you are curling your lashes for about 15 seconds on each side.
- ♥ Start at the base of the lashes and stroke upward (don't wiggle or zig zag).

RIBBON WRAPPED LASH MASCARA FAQs

Why am I seeing mascara flakes on my face after I remove it with warm water?

- 💖 This is the warm-water washable formula working! Warm water dissolves the mascara, resulting in the appearance of dissolved tubes. We suggest following with your preferred face cleanser.

Why did I not see tubes when I removed it?

- 💖 When you apply warm water to your lashes, the tubes dissolve for easy removal.

I want more volume than what I am getting with Ribbon Wrapped Lash Mascara.

- 💖 For more volume and lift, we suggest using Better Than Sex Foreplay Mascara Primer. Apply from base to tip in a straight stroke. Use waterproof eye makeup remover for removal.
