Application Methods

and N/N Pure Tone

Use a fine-tooth comb to blend or cover short hair or small areas. Mix the formula with **color catalyst™ conditioning creme developer** in a 1:1 ratio, and apply it to the last few teeth of the comb. Hold the comb diagonally to apply the formula to the areas needing grey coverage.

and N/N Pure Tone

Series

Use a bottle for quick applications. Mix the formula with **color catalyst™ liquid developer** in a 1:1 ratio. Begin the application in the area with the most grey.

Use a bowl and brush for precise applications. Mix the formula with **color catalyst™ conditioning creme developer** in a 1:1 ratio. Begin the application in the area with the most grey.

Removal guidelines

Rinse the hair thoroughly with comfortably warm water until the water runs clear. Shampoo with **botanical repair™ strengthening shampoo**, rinse thoroughly and squeeze excess moisture from the hair. Condition with **botanical repair™ strengthening conditioner**, and rinse.
